Technical Bulletin SAMSUNG DCS 066	
Issued by: Jonathon Walls Date: 03/06/04 Approved: W. Wood Date: 09/06/04	Signed:  Signed: 
Replaces Technical Bulletin : N/A	System: DCS 816 Version 1.30
Subject : 6 Button Handsets on DCS816	Number of pages: 1

6 Button Keyphone's and DCS 816 Ver 1.30

The new Version 1.30 software introduced for the support of the new DS5000S series of handsets does not support the old 6 button Euro Keyphone's; if you require to use the old 6 Button Keyphones on a DCS816, then you will need to specify the previous version of software (V1.21) on the order.

All new DCS 816 systems are being sent out with V1.30 software, which supports the new DS5000S range of Keyphone's.

If you require Version V1.21 then you need to specify this on your order. The 6 button Euro Keysets cannot be mixed with the new DS5000S range of keysets on the same system.
