Issued by: Andrew Kenyon Date: 17/10/00 Approved: David Ridley Date: 19/10/00	Signed:  Signed: 
Replaces Technical Bulletin : N/A	
Subject : Standard Key Phones & Cadence Message Waiting Lamp	Number of pages: 1

## **When using the 'Standard Key Phones' with the Cadence card:**

- It has been recognized that if a Standard Key Phone is used on a COMPACT 2 or DCS with CADENCE, and the subscriber receives a Voice Mail message, CADENCE will light the Message Wait Lamp.  
If subsequently the Standard Key Phone is used before the message is retrieved, the Lamp is switched off.  
The message can still be retrieved but no further notification will take place.
