TOP 6 REASONS TO CHOOSE

FreePBX.
let freedom ring™

Feature Loaded

Out-of-the-box, FreePBX is an incredibly feature-rich PBX with dozens of standard features. Many more advanced add-ons are available as well such as High Availability, Zulu UC and Phone Apps.

Used by Millions

FreePBX is the world's most deployed open source business communications system with a vibrant community, millions of active installations and over 400 new installs per day.

Open Platform

FreePBX leverages standard computing servers and Linux OS. It is configured and managed using standard web browsers. It fully supports the ubiquitous SIP protocol.

Flexible Deployment

FreePBX is available as a free download-able software package. It can be installed on your own server or virtual machine.

Future Proof

With a huge install base and large ecosystem of VoIP enthusiasts & vendors, there is a continuous stream of innovation making FreePBX your best PBX solution for years to come.

Backed by Sangoma

With decades of backing open source projects, Sangoma Technologies is the main sponsor and the innovative force behind FreePBX.

SANGOMA
PROVISIONING

2

Built-in Security

All Sangoma phones are enabled to provide secure configuration (HTTPS), Secure VoIP Protocol, Voice (TLS and SRTP) and on-board VPN clients that integrate directly with PBXact UC VPN server software.

3

Phone Apps

With Sangoma phones, PBXact UC Phone Apps are activated immediately, with applications like DND, Time Conditions and Visual Voicemail. No need to remember complex feature codes!

Phone APPS

4

5-Way Conferencing

Easily set up ad-hoc 5-way conference calls in no time. No need to schedule and reserve conference bridges.

5

High-def Voice

Leverage our built-in high definition voice codecs for amazing call clarity in 1:1 calls, conference calls and over-the-speaker phone calls.

HD
